DETAILED ACTION

Applicant's arguments filed on 7/22/02 (paper #10) have been fully considered.

Response to Amendment

Due to numerous amendments to the written description, a substitute specification is requested.

Claim Objections

1. Claim 34 is objected to because of the following informalities: A bracket "[" seems to be missing from the equation. Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1, 4, 6, 8-10, 12-14, 17, 19, 21-24, 26-28, 32, and 33 are rejected under 35 U.S.C. 102(e) as being anticipated by Hayashi (6,426,790).

Hayashi discloses a substrate attracting and holding method and system comprising the steps of supporting a substrate (W1, W2) by protrusion (87) wherein the protrusion is disposed to be placed in a predetermined positional relations with a position of an alignment mark (FM1, FM 2) to be used for processing the substrate and reducing a pressure between the holding table (col. 8, line 50 – col. 9, line 22) and the substrate to attract and hold the substrate (col. 8, lines 5-49).

Claims 1, 4, 6, 8-10, 12-14, 17, 19, 21-24, 26-28, 32, and 33 are rejected under 35 U.S.C. 102(e) as being anticipated by Mizutani et al. (Mizutani) (6,184,972).

Mizutani discloses a substrate attracting and holding method and system comprising the steps of supporting a substrate (W) by protrusion (10) wherein the protrusion is disposed to be placed in a predetermined positional relations with a position of an alignment mark to be used for processing the substrate (col. 14, lines 46-59, col. 15, lines 25-35) and reducing a pressure between the holding table and the substrate to attract and hold the substrate (col 15, lines 36-46, col. 9, lines 10-18).

Allowable Subject Matter

4. Claims 2, 3, 5, 7, 11, 15, 16, 18, 20, and 25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. Claims 35-52 are allowed.
6. Claim 34 would be allowable if rewritten to overcome the objection.

Response to Arguments

Claims 1, 13, 14, 27, 32 and 33 are rejected with references Hayashi and Mizutani. The language of the claims regarding the "predetermined positional relation" with the alignment mark is broad enough to read on the cited prior art.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
